Ms. Green:

We have received the Corrected Filing Receipt mailed 12/22/2005 which still contains
A copy of the 12/22/2005 receipt follows with the required corrections marked thereon.

By fax of December 21, 2004 we requested only one small change to the Corrected Filing
pt mailed 12/01/2005, i.e., to correct the spelling of the city of residence for the second
inventor Christian Von Falkenhausen. However, the requested correction was not entered (on the
pt mailed December 22), and a change of the title was entered that was not requested. With
effect of December 21, we submitted copies of the relevant pages from documents supporting the
requested corrections and are not resending them at this time. Please contact me if you need them
Therefore:

1) Please correct the city of residence for the second inventor, Christian Von Falkenhausen,
Meckenheim, note the "k" in Meckenheim - i.e., the entry for Mr. Von Falkenhausen should

Dr. Christian Von Falkenhausen, Meckenheim, GERMANY

We also note that titles are not usually included with inventor identification in the United
States. If you decide to delete the "Dr." for Christian Von Falkenhausen, please also do so for (Dr.)
Hans Krumme, the third inventor.

Dear Ms. Green:

We have received the Corrected Filing Receipt mailed 12/22/2005 which still contains errors. A copy of the 12/22/2005 receipt follows with the required corrections marked thereon.

By fax of December 21, 2004 we requested only one small change to the Corrected Filing Receipt mailed 12/01/2005, i.e., to correct the spelling of the city of residence for the second inventor Christian Von Falkenhausen. However, the requested correction was not entered (on the Receipt mailed December 22), and a change of the title was entered that was not requested. With our fax of December 21, we submitted copies of the relevant pages from documents supporting the requested corrections and are not resending them at this time. Please contact me if you need them again. Therefore:

1) Please correct the city of residence for the second inventor, Christian Von Falkenhausen, to Meckenheim, note the "k" in Meckenheim - i.e., the entry for Mr. Von Falkenhausen should read:

Dr. Christian Von Falkenhausen, Meckenheim, GERMANY

We also note that titles are not usually included with inventor identification in the United States. If you decide to delete the "Dr." for Christian Von Falkenhausen, please also do so for (Dr.) Markus Krumme, the third inventor.

2) The Corrected Filing Receipt of December 1, 2005 also had the proper title:

**FILM-SHAPED DISINTEGRATABLE PREPARATIONS FOR ACTIVE
SUBSTANCE RELEASE AND PROCESSES FOR THE PRODUCTION THEREOF**

Please re-enter this proper title as it was to have been entered on the original PTO records in view of the Preliminary Amendment filed with the U.S. national phase application. This correction had been made on the Corrected Filing Receipt mailed 12/01/2005, but somehow it was changed again.

Please contact me if you require anything further to issue a proper Filing Receipt for this application. We appreciate your diligence in trying to complete this matter, and

All Good Wishes for a Happy New Year!

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).
